ESCAPE — TO YOUR — GARDEN

The air might be crisper but when the sun is out, Winter gardening is a refreshing excuse to get outdoors. Here are three of our favourite projects for the cooler months.

FOR MORE HOW-TO GUIDES & GARDEN PROJECTS, VISIT [STIHL.COM.AU/BLOG](https://www.stihl.com.au/blog)

1 **SHAPE YOUR GARDEN TOP TIPS FOR WINTER PRUNING**

Deciduous trees will drop their leaves before going dormant in winter, making it the perfect time for pruning, shaping and tidying.

- Remove the three Ds - dead, diseased, and damaged plants.
- Protect your home! Remove any branches near eaves, light poles and power lines.
- Underprune your trees. This will give them a lovely natural form and expose the base to sunlight.
- Save your trimmings! Shred and compost small branches and keep larger pieces for the woodpile.

Explore our top selling pole pruners and hedge trimmers on page 7.

YOUR SMARTPHONE CAMERA AND HOVER
OVER THE QR CODE TO VISIT THE STIHL BLOG.**

2

CREATE A WOODSTACK

THE SMARTEST WAY TO STORE FIREWOOD

The perfect burn starts with how you store your firewood. A well stacked woodpile will make for a warm, toasty winter.

- Store your wood away from weatherboards and wood fences and sheltered from the rain.
- Keep your logs dry by cutting them short, 6-8 inches is a good guide to follow.
- Burn your logs when they're pale, light and hard. If they're still soft, coloured and heavy, they need more time to dry.

See how our world famous chainsaws stack up on page 5.

FOR MORE TIPS ON HOW TO CUT, CHOP AND STORE FIREWOOD, OPEN YOUR SMARTPHONE CAMERA AND HOVER OVER THE QR CODE TO VISIT THE STIHL BLOG.

3

TURN GARDEN WASTE INTO NATURE'S GOLD

CREATE YOUR OWN COMPOST

A good compost is made up of four key components. It's that simple!

- First add green matter such as hedge clippings, leafy greens, vegetable scraps, egg shells and ground coffee.
- Then add brown matter such as dry, fallen leaves and shredded branches.
- Allow your compost to oxidise in an open container. Turn the pile every few weeks.
- Lightly water! Once a week if you reside in the southern states, two to three times a week if you're up north.

Reduce waste by up to 75% with a STIHL garden shredder. View the range on page 11.
